Biotechnology Educator Program

The Biotech Educator Program offers STEM teachers hands-on training in cutting-edge biotechnology. This unique opportunity equips educators with the tools and experience to bring real-world science into the classroom, inspire students, and strengthen New Jersey's STEM pipeline. Apply today and help shape the future of biotech education.

Cohort 2 - Two Week Program

Week 1: July 15-17, 2025, Virtual Session (unlimited spots available)

Week 2: July 24-25, 2025, On Site training at BMS (Princeton location)

In-person training on July 24th and 25th is limited to 12 educators, selected during the first week. The stipend is \$200 per day.
